PROFESSIONAL SUMMARY

Detail-oriented BCA graduate specializing in Data Analytics, with hands-on experience across three internships in Excel, SQL, Power BI, and Python. Skilled in data cleaning, EDA, and building interactive dashboards that turn raw data into actionable business insights.

TECHNICAL SKILLS

- Power BI
- Microsoft Excel
- SQL
- Python
- Power Query
- DAX
- Data Cleaning
- Data Visualization
- Exploratory Data Analysis (EDA)

PROJECTS

Accounts Receivable Dashboard | Power BI

- Designed an interactive AR dashboard to track outstanding invoices and customer payment behavior
- Built custom DAX measures and KPIs to monitor receivables performance

ECF Payment Analysis Dashboard | Power BI, Power Query

- Built an executive-level dashboard summarizing payment trends for leadership review
- Used Power Query to clean and transform raw transactional data

Amazon Sales Dashboard | Power BI, Excel

- Analyzed sales performance across products, categories, and regions
- Built category- and region-level insights to highlight top-performing segments

EXPERIENCE

Data Analytics Intern | Asquare Technologies

2025 – 2026

- Performed data cleaning and preprocessing on raw datasets to ensure accuracy and consistency
- Developed interactive dashboards and reports for business analysis using Power BI and Excel

Data Analyst Intern | International Group of Aamina (IGA), Kuwait

2026

- Worked on data analysis tasks throughout the internship period
- Gained exposure to real-world business data and reporting practices

Data Analytics Intern | Skillified Mentor

2025 – 2026

- Analyzed customer data using Python and Google Colab
- Created visualizations to identify trends and behavioral patterns

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

Calicut University — Specialization: Computer Applications, focus on Data Analytics

CERTIFICATIONS

- Data Analytics Program — Asquare Technologies
- Power BI
- SQL
- Python
