SUMMARY

motivated BCA graduate specializing in Data Analytics with hands-on training in data analytics tools and programming languages. My expertise spans Excel, SQL, Power BI, and Python, complemented by practical experience in data visualization and analytics projects. I am eager to apply my strong analytical mindset in a professional setting to facilitate data-driven decision-making

EXPERIENCE

International Data Analytics Intern

Asquare Technologies

12/2025 - 01/2026 Kochi, Kerala

Asquare Technologies focuses on data analytics and software solutions

- Completed an international internship focused on data analytics and visualization
- Performed data cleaning, transformation, and dashboard building using Power BI and Excel
- Worked on real datasets to derive business insights and performance metrics

Data Analytics Intern

Skillified Mentor

10/2025 - 01/2026 Remote

- Completed a data analytics internship focused on Bank Term Deposit and Client Subscription Analysis using Python (Google Colab)
- Performed data cleaning, exploratory data analysis, and visualization to identify customer behavior and deposit trends
- Analyzed key factors influencing term deposit subscriptions to support data-driven decision-making

Python Intern

Riss Technologies

01/2025 - 02/2025 Thrissur, Kerala

Riss Technologies specializes in technology consulting and software development

- Assisted in developing and debugging Python projects
- Gained exposure to Python programming and basic data handling concepts
- Participated in supervised code reviews and training sessions

EDUCATION

BCA

Calicut University

06/2021 - 05/2025 Kerala

KEY ACHIEVEMENTS

Neuro Path Care Application(Python+android)

- Successfully developed a comprehensive application to support Alzheimer's patients, integrating useful features for caregivers
- Completed under mentor supervision at Riss Technologies.

Bmw Sales Analysis(Python)

- Analyzed 2015–2024 BMW sales data using NumPy, Pandas, Seaborn, and Matplotlib
- Performed data cleaning and exploratory analysis to identify sales trends and model-wise performance.

Amazon Sales Analysis(Power bi)

- Developed a sales performance dashboard to provide insights on revenue trends, facilitating strategic decision-making
- Implemented KPIs, filters, and charts for better decision-making insights.

ECF Analysis (Power BI)

- Developed interactive Power BI dashboards to analyze employee cost, revenue, and department-wise performance
- Identified key financial trends and insights to support management decision-making

AR Analysis (Power BI)

- Created dashboards to monitor accounts receivable aging, overdue amounts, and collection efficiency
- Provided actionable insights to improve cash flow and reduce payment delays
